Why the product is recalled: Through the Vitamix ongoing quality inspection program, a potential safety issue has been identified with the US versions of the above containers. Out of an abundance of caution Vitamix has decided to issue a voluntary recall on all 225ml and 600ml Blending Containers and Blade Bases products globally. It is important to note that the Australian models of these products have interlock technology and will not operate if the lid is loose or not put on correctly.

Hazard: It is possible that the container may separate from the blade base exposing the blades to consumers, creating a laceration hazard.

1. Consumers should stop using the product immediately.
2. Consumers may receive a free repair kit, in Australia consumers can call 1800 959 459 to register their details.
